Mr. James W. Greenleaf
Director of Public Affairs
Central Intelligence Agency
Washington, D.C. 20505

Dear Mr. Greenleaf:

My thanks to you, and to Judge Webster as well, for your kind consideration of my request for assistance on a project involving the late [redacted]

STAT

I quite understand the agency's inability, by charter, to be more forthcoming.

But I am additionally grateful for your suggestions on the directions I might take in searching existing archives for information.

[redacted] was a genuine favorite of mine. We spent many happy hours together, and were it not for the public identification of George's work in a number of books, I simply would not have known what he did. He was a man of consummate good manners when it came to observing the confidential nature of his work.

STAT

Along with a couple other projects, I've made [redacted] work a special mission. I hope I can do him and the agency justice.

STAT

Cordially,

c: Judge Webster
